

IN BRIEF

Green Bay

Georgia-Pacific honors Leicht

Leicht Transfer and Storage received the 2004 Service Award and 2004 Inventory Accuracy Award from Georgia-Pacific Corp.

Leicht was the only one of 54 Georgia-Pacific distribution operations nationwide to receive each honor.

In 2003, Leicht implemented a customized inventory-management system that utilizes bar codes and radio-frequency transmissions to track 500 Georgia-Pacific products in more than 1 million-square feet of warehouse space. Warehouse employees use Pocket PC computers to track items numbers, quantities and locations, giving office staff real-time information on product movement.
